DETAILED ACTION

1. Applicant's election without traverse of Invention I and Figure 2 in the reply filed on 11/28/05 is acknowledged. However, the amendment to claim 37 to depend upon claim 48 requires a revised restriction requirement as set forth below. Claims 37-47 include method limitations that are proper for class 186 and are beyond the scope of class 296.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 48-61, drawn to a furniture sales vehicle and related method of use, classified in class 296, subclass 24.36.
 - II. Claims 21-36 and 37-47, drawn to a method for the mobile sale of sleeping devices, classified in class 186, subclass 52.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). Re claims 21-36, the product can be used by a materially different process

which does not involve the step of driving a loaded vehicle to a customer. Re claims 37-47, the product can be used by a materially different process which does not involve collecting information from a consumer regarding one of the desired items for purchase.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph D. Pape whose telephone number is (571)272-6664. The examiner can normally be reached on Tuesday-Friday 6:30 AM-3:00 PM.
